

Non-invasive ventilation in the management of children with bronchiolitis: A feasibility study

Has your child (aged between 0-2 years) been admitted to hospital with bronchiolitis in the last two years?

- ❖ We would like parents/legal guardians to take part in an online survey to help us improve bronchiolitis research.
- ❖ We would like to know what information you think should be gathered and reported in bronchiolitis research.
- ❖ This will help to ensure that bronchiolitis research better answers the questions that are important to healthcare professionals, parents and children.
